## *Discover the CitiObs Journey*

Enhancing Citizen Observatories Across Europe

CitiObs' mission is to support and enhance Citizen Observatories, so that they serve as a vehicle towards sustainable development, resilient cities and inclusivity. CitiObs will collaborate with **Citizen Observatories in 85 cities**, including citizens from all backgrounds, authorities, scientists and other relevant stakeholders, enhancing the co-creation of data, knowledge and citizen-led local actions to improve the urban environment.

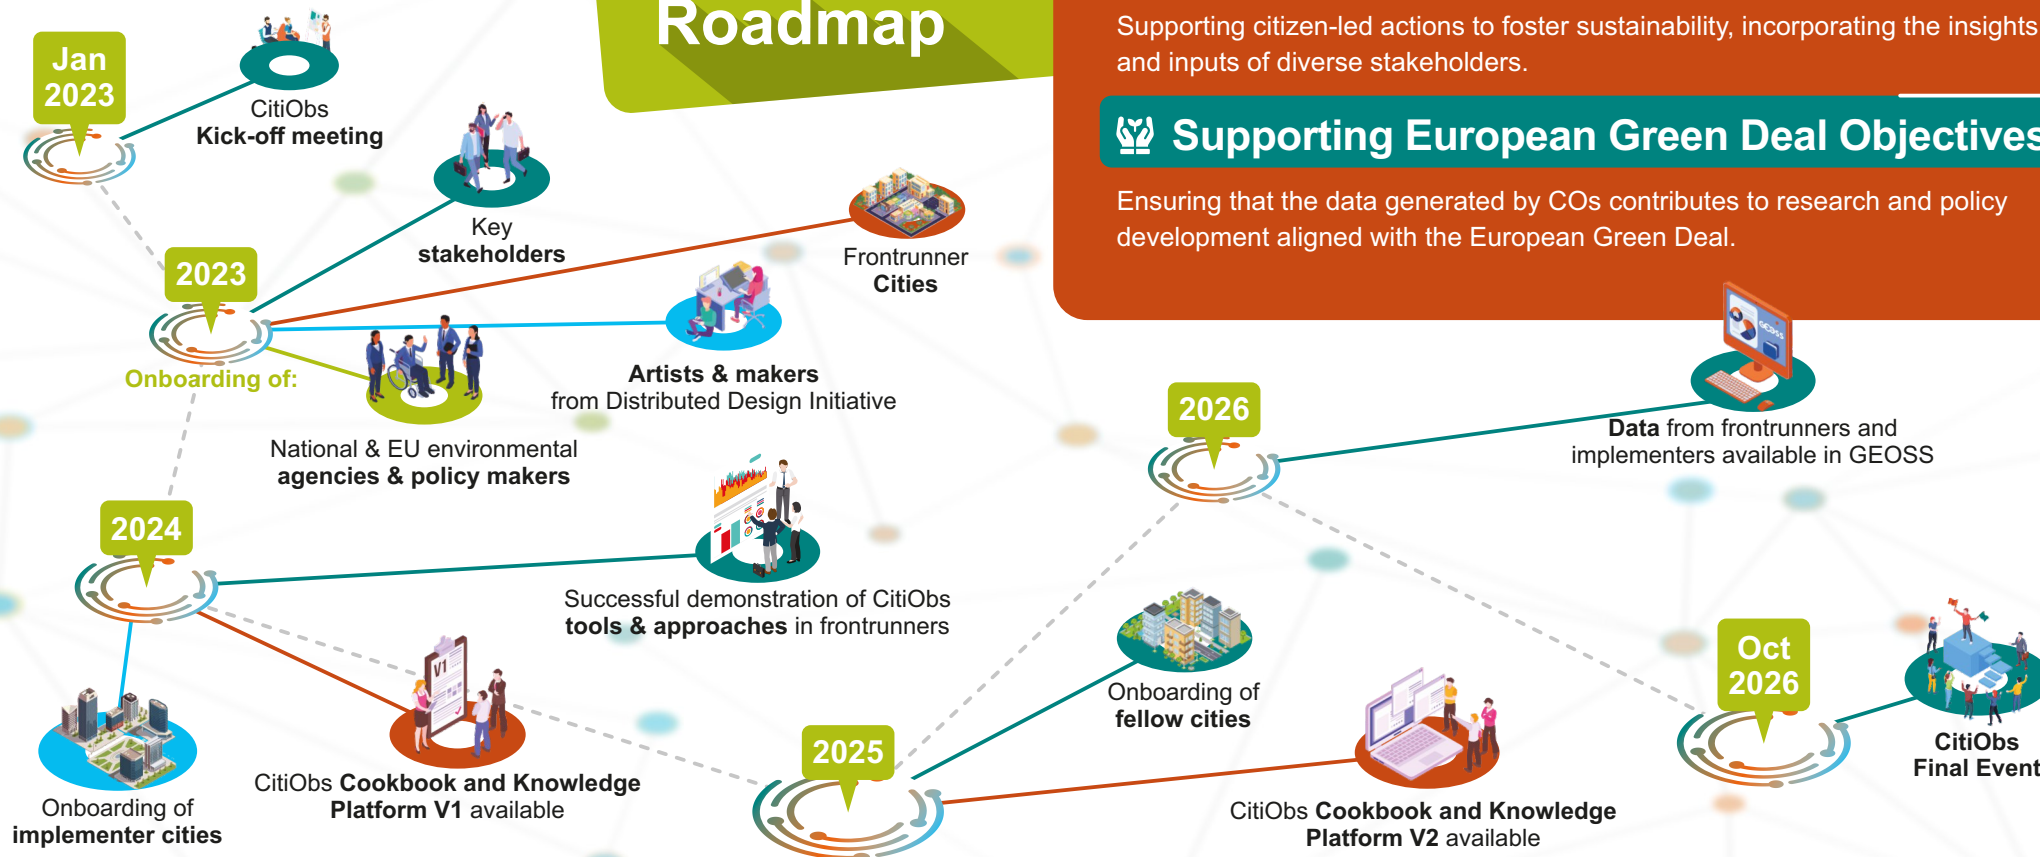

# CitiObs at a glance

CitiObs aims to facilitate collaborative data creation, knowledge sharing, and local initiatives through **Citizen Observatories (COs)**.

## Roadmap

### Empowering Engagement

Enhancing both existing and new Citizen Observatories to actively involve citizens and marginalized communities in environmental observations.

### Enriching Environmental Observations

Adding value to environmental data collected in urban areas, thereby improving our understanding of the urban environment.

### Validating Citizen Observations

Increasing the reliability of citizen-generated observations in urban areas, integrating them into established Earth Observation systems.

### Co-creating Inclusive Local Actions

Supporting citizen-led actions to foster sustainability, incorporating the insights and inputs of diverse stakeholders.

### Supporting European Green Deal Objectives

Ensuring that the data generated by COs contributes to research and policy development aligned with the European Green Deal.
